## Manav Mangal High School, Chandigarh

Students of class X, Manav Mangal High School, Sector 21-C, Chandigarh took the initiative to distribute eatables to the people living in the slum areas. They also donated utility items like toothpaste, toothbrush, soaps, detergents etc., and explained the usage of the same, thus spreading awareness on the importance of hygiene to lead a disease-free life. According to Branch Director, Mrs. Anjali Sardana, this kind of an outreach programme is a regular feature conducted by the manavites to retain the values of humanity and experience the joy of sharing. The students were quite moved to have witnessed such pitiable living conditions of these people and pledged to continue helping the under privileged whenever and wherever needed. They felt blessed to have been a part of this endeavour.

### LIBRARY VISIT

Students of class VI, Manav Mangal High School, Sector 21-C, Chandigarh visited a city

library and had access to various books as an activity to enhance the habit of reading. In today's era where technology reigns, children are becoming more addicted to computers, thereby losing their interest in reading. The digital distractions bring along more stress. Here, books come to our rescue by being a source of relaxation and providing knowledge beyond classroom learning. Extensive reading has always improved the vocabulary of a child. It develops smarter children with positive thinking and greater writing power. Their analytical skills receive a tremendous boost bringing about self-esteem. Besides reading books provided by the school libraries, children can always gain more exposure and reach out to the world on a wider platform by visiting various libraries online and offline. The students indeed were overwhelmed and thanked the teachers for the wonderful experience. They promised to retain the reading habit which is rapidly fading away.

**Manav Mangal High School, Chandigarh**

Students of Class 6, Manav Mangal High School, Sector 21-C, visited a city library so as to inculcate the habit of reading. Extensive reading helps improve a child's vocabulary, especially in a world where they are getting more dependent on social media and technology driven activities. The students indeed were overwhelmed and thanked the teachers for the wonderful experience.
